

Digital Loan Application and Approval System

Full Visual Structure Blueprint

1. System Overview

- Cloud-based fintech-style web application.
- Users: Borrower and Admin (Loan Officer).
- Core Layers: Presentation Layer, Application Layer, Data Layer, External Services.
- Integrations: AI Chatbot, Mobile Money (M-Pesa), SMS/Email Notifications.

2. Splash Screen Blueprint

- Centered Logo and System Name.
- Tagline: Fast. Secure. Reliable Loans.
- Animated loading indicator.
- Auto-redirect to login screen after 2–3 seconds.
- Deep Trust Blue gradient background theme.

3. Borrower Dashboard Structure

- Sidebar: Dashboard, Apply Loan, My Loans, KYC, Notifications, Logout.
- Welcome Card with borrower name.
- Loan Status Card showing amount and approval status.
- Recent Activity Panel.
- Floating AI Chatbot bottom-right.

4. Admin Dashboard Structure

- Statistics Cards: Total, Pending, Approved, Rejected Loans.
- Loan Trend Analytics Chart.
- Applications Table with Approve/Reject buttons.
- KYC Review Section.
- Reports and User Management.

5. Loan Workflow Structure

- Borrower submits application.
- System performs validation and eligibility check.
- Admin reviews application and documents.

- Approve or Reject decision.
- If approved: Disbursement via Mobile Money.
- System updates status and sends notification.

6. Security and Cloud Architecture

- Password hashing and secure authentication.
- Role-based access control (Borrower/Admin).
- CSRF protection and session regeneration.
- Cloud-hosted server and database.
- Secure file storage for KYC documents.
- SSL encryption and automated backups.
